RE: Application for Tobacco Research Council Grant

Dear Sirs,

I am interested in submitting a grant application to The Council for Tobacco Research-U.S.A. Inc. for funds to support research in the area of Tumor Procoagulants and Metastasis. I would like to request more information concerning regulations and requirements of the council related to funding scientific research. I will also require a grant application form with instructions.

Thank you for your cooperation.

Sincerely

Mohan Chelladurai, Ph.D.
Research Assistant Professor
Department of Radiation Oncology
